9.1 Registration/Sign-In

- All riders must register and/or sign-in before the start of each event upon which time they will be issued a numbered bib, which is to be worn at all times during the event for identification purposes
- For competition events, riders must register at least 9 days prior to the event in order to be assigned a place as well as receive the course layout for preparation

9.2 Competition

- Each rider will have one (1) walk-through and attempt three (3) time attacks of a course
- Their fastest time (including penalties) of the three times will be used to determine the overall time

9.3 Start Procedure

- At competitions riders will compete in successive bib number order. Riders must warm their tires on the warm-up course before attempting the competition course and will be allotted sufficient time to do so
- From the warm-up course, they will be called either to the figure-8 box where they will continue to ride until called to enter the start box (in special cases, riders may be called directly from the warm-up course directly into the start box)
- Upon being called into start box, a rider must enter without delay. Failure to make the start box when called upon to do so will result in a time penalty

- If a rider stalls in the box but has already triggered the timing equipment, the attack has begun and the rider should restart the motorcycle/scooter and continue
- If a rider is called to the start box and accidentally triggers the timing equipment before being properly positioned and before being given a release to begin the attack, this will be considered a jump-start

9.4 Competition Course Rules

- No practice attempts are allowed on the course
- The course and route will be provided in diagram form for each rider and is to be ridden in the order displayed on the course diagram
- All obstacles on the course must be attempted
